**Academic year 2019-20**

Mahatma Basweshwar College has conducted a student satisfaction survey in the academic year 2019-20. The survey was conducted by filling the actual questionnaires from the students. Almost 874 questionnaires were filled in by the male and female students of the undergraduate and graduate years of the college and taken for analysis as a sample selection. Analysis report has been prepared on the basis of the questions in the questionnaire. On the basis of this student satisfaction survey, a study has been made on the basis of various questions in the college about needle facilities and other things. It has been obtained that the answers to the questions asked in the questionnaire are satisfactory, about 90 to 70 percent of the students have chosen this type of answer. According to the opinion of the students, it is seen that the opinion of the students is satisfactory, but the number of students in that context is less. In this questionnaire, the students say that the progress of the college is satisfactory. As per the number of responses, we scan scanned uploaded 55 Questionary forms and we provided total graphical data of the participant
